Summary

I am a programming enthusiast focused on developing high-quality web and mobile applications with Javascript, when I am not coding or studying I like to be in nature, take pictures, travel, and spent time with family and friends.

What do I like about programming?
Programming incorporates creativity and problem-solving, keeps me constantly learning, and challenges me.

I am great at communicating and working with teams with Agile methodologies using Scrum. I am open to challenges and always aiming toward growth and improvement.

I have used many of the latest techs: ES6, TypeScript, React, Redux, Nodejs, React Native, etc.

Experience
